

Is your job to  
**look**  
**after**  
**these?**

let  
Dingo  
**look**  
**after**  
**you**

D i n g o

# Dingo's new Condition Intelligence™ Service:

- *Keep equipment running*
- *Reduce expensive repairs*
- *Empower your mechanics*
- *Maximize warranty benefit*

Proven with  
global asset  
management  
leaders

## Its as easy as 1,2,3.

Take oil  
samples  
from your  
equipment

1

Send  
samples  
to lab for  
testing

2

Our expert  
advises  
what to do  
and how

3

### Right advice, right price, right now

- Spend more time acting, less with administration
- Takes the guesswork out of problem identification and correction
- Translates lab test data into what specific action is required by you
- Daily telephone follow up by experienced equipment experts
- Per component fees let you control costs
- Receive make/model/component specific recommendations of what maintenance is necessary based on interactive diagnosis

### Much more than lab testing

- Independent personalized advice from experienced equipment experts
- Site visit every 90 days
- Component specific tests
- Includes Dingo's Trakka™ software FREE – used by five of the ten largest mining companies in the world
- Hundreds of Unit specific maintenance procedures with step by step instructions and photographs
- Expert help to support warranty claims
- Assistance with root cause elimination
